Venue: IBS Gurgaon, Sector 16, Gurugram

Target Audience: DPGITM Students

Coordinator's: Mr. Deepak Sharma and Dr. Anju Gehlot Schrawat

Mode: Offline

Introduction

DPG Institute of Technology and Management, Gurugram, organized an industrial visit to IBS Gurgaon, ICFAI Business School, on 18 August 2026. The visit was conducted to provide students with practical exposure to the academic environment, professional culture, and learning facilities of a reputed business school. It offered an opportunity for students to understand how higher education institutions prepare learners for the corporate world through management education, communication training, leadership development, and industry-oriented activities.

During the visit, students were warmly welcomed by the IBS Gurgaon team and were introduced to the campus environment. They visited different academic and activity spaces, including the computer laboratory and music room. The faculty members also discussed the importance of personality development, confidence, teamwork, professional behaviour, and communication skills in achieving career success. The visit was informative, interactive, and highly beneficial for the participating students.

Objectives

- To provide students with exposure to the academic and professional environment of IBS Gurgaon.
- To understand the importance of management education and the role of business schools in career development.
- To make students aware of professional communication, teamwork, leadership, and personality development.
- To help students explore higher education options and future career opportunities.
- To connect classroom learning with real-world professional expectations.
- To motivate students to develop confidence, discipline, and a positive attitude towards their career goals.

Session Highlights

The visit began with an orientation session in which students were introduced to IBS Gurgaon, its academic culture, and the importance of management education in the current competitive environment. The speakers explained how students can improve their career prospects by developing strong communication skills, analytical thinking, leadership qualities, and the ability to work effectively in teams.

Students were given a campus tour and were shown important facilities available at the institution. They visited the computer laboratory, where they observed the technology-enabled learning environment. They also visited the activity and music room, which reflected the importance of extracurricular activities and overall personality development in higher education.

An interactive session was conducted with students, faculty members, and representatives of IBS Gurgaon. Students gained valuable guidance regarding career planning, higher studies, professional conduct, and

future opportunities in the management and corporate sectors. The visit concluded with a group photograph and a positive exchange of ideas between the students and the IBS Gurgaon team.

Key Takeaways

- Students gained knowledge about the academic structure and professional culture followed at IBS Gurgaon.
- The visit increased awareness of higher education opportunities in management and business-related fields.
- Students understood the importance of communication skills, confidence, leadership, and teamwork in professional life.
- They learned that classroom knowledge must be supported by practical exposure, discipline, and continuous self-improvement.
- The campus visits motivated students to prepare for future career opportunities with a focused and positive approach.
- Students also understood the value of participating in activities that improve creativity, personality, and interpersonal skills.

Conclusion

The industrial visit to IBS Gurgaon was a meaningful and enriching learning experience for the students of DPG Institute of Technology and Management. It helped them understand the connection between academic learning and the professional world. The visit provided useful insights into management education, career planning, workplace expectations, and the importance of overall personality development.

Such industrial and academic visits are highly valuable because they allow students to observe real institutional practices beyond the classroom. The experience motivated the students to work on their skills, set clear career goals, and prepare themselves for future educational and professional challenges. Overall, the visit to IBS Gurgaon was successful, informative, and beneficial for all participating students.

Industrial Visit Photographs

Group photograph at IBS Gurgaon

This photograph was taken outside the IBS Gurgaon campus with the participating students, faculty members, and IBS representatives. It reflects the successful completion of the industrial visit and the active participation of students in the academic exposure programme.

This photograph shows students and faculty members attending the interactive session at IBS Gurgaon. The session provided students with information about management education, professional development, career planning, and the importance of communication skills.

Students and faculty during the session

Interactive learning session at IBS Gurgaon

This photograph captures students during the academic interaction in the computer laboratory. Students observed the technology-enabled learning environment and understood how modern educational institutions use digital resources for effective teaching and professional skill development.

This photograph was taken during the visit to the activity and music room at IBS Gurgaon. It shows that along with academic learning, the institution also promotes extracurricular activities, creativity, confidence, teamwork, and overall personality development among students.
