DPG Institute of Technology and Management, Gurugram

INDUSTRIAL VISIT REPORT

Network Bulls, Sector 14, Gurugram

Type of event: Industrial Visit

Date: 21st October, 2026

Venue: Network Bulls, Sector 14, Gurugram

Organized by: Department of Computer Applications (CAD)

Participating departments: Computer Applications and Computer Science & Engineering

Mode: Offline

Participants: A total of 45 students from BCA and B.Tech 5th Semester participated in the industrial visit.

Faculty Coordinators: Dr. Payal Jindal (Department of Computer Applications) and Ms. Arpita (Department of Computer Science & Engineering).

Introduction & Target Audience:

The Department of Computer Applications organized an industrial visit to Network Bulls, Sector 14, Gurugram, on 21st October, 2026. The visit was planned to provide students with an opportunity to gain exposure to a professional technology environment and to understand how concepts studied in the classroom connect with industry practices. The visit was attended by students of BCA and B.Tech 5th Semester.

Objectives:

- To provide students with practical exposure to a professional IT and networking environment.
- To help students understand the relevance of academic concepts in real-world industry settings.
- To create awareness about industry expectations, technical skills and possible career opportunities.
- To encourage students to interact, observe and learn beyond the classroom.

Brief Report

The industrial visit to Network Bulls was organized with the objective of bridging the gap between theoretical learning and practical industry exposure. The visit offered students an opportunity to observe a professional technology-oriented work environment and gain a better understanding of the role of technical knowledge and practical skills in the IT sector.

The students participated enthusiastically and gained useful insights into the professional working environment. The interaction and exposure during the visit encouraged them to explore technical domains, strengthen their learning and become more aware of the skills required for future career opportunities. Six students were awarded certificates of appreciation in recognition of their performance/participation.

Key Takeaways:

- Exposure to a professional IT and networking organization.
- Understanding the importance of practical knowledge alongside classroom learning.
- Awareness of technical skills and professional expectations in the industry.
- Motivation to enhance technical competencies and prepare for career opportunities.

- Recognition of six students with certificates of appreciation.

The industrial visit to Network Bulls was an informative and enriching experience for the participating students. It provided valuable industry exposure, strengthened the connection between academic learning and practical application, and motivated students to develop the technical and professional skills required in the IT industry. The Department appreciates the participation of all students and the efforts of the faculty coordinators in making the visit successful.

Glimpses of the Industrial Visit
